

**lateralization of brain function an overview** - lateralization of brain function cerebral lateralization is an evolutionary ancient adaptation of the brain that contributes to biological fitness vallortigara et al 1999, **baby s brain begins now conception to age 3 urban child** - scientists use gyri and sulci to divide the cerebral cortex into smaller units called lobes each hemisphere has four lobes the occipital lobes at the back of the brain control vision, **differences in cortical representation and structural** - differences in cortical representation and structural connectivity of hands and feet between professional handball players and ballet dancers, **omim entry 605210 disrupted in schizophrenia 1 disc1** - ozeki et al 2003 demonstrated that rodent disc1 expression displayed pronounced developmental regulation with the highest levels in late embryonic life during development of the cerebral cortex in a yeast 2 hybrid assay of a human whole brain cdna library disc1 interacted with a variety of cytoskeletal proteins one of these nudel ndel1 607538 is associated with cortical development, **mapping the self in the brain s default mode network** - the brain s default mode network dmn has become almost synonymous with self referential mental activity the dmn composed primarily of posterior cingulate cortex pcc medial prefrontal cortex mpfc and the inferior parietal lobule ipi was first identified by an analysis of nuclear imaging studies that showed that these brain regions consistently displayed higher levels of, **research in brain function and learning** - it is important for teachers and parents to understand that maturation of the brain influences learning readiness for teachers this is especially important when designing lessons and selecting which strategies to use, **ischemic stroke practice essentials background anatomy** - acute ischemic stroke ais is characterized by the sudden loss of blood circulation to an area of the brain typically in a vascular territory resulting in a corresponding loss of neurologic function also previously called cerebrovascular accident cva or stroke syndrome stroke is a nonspecific state of brain injury with neuronal dysfunc, **publications cognitive function and ageing studies** - cfas has over 250 publications to date below you can find a list of the publications categorised by date 2010 present 2000 2009 1990 1999 2010 present 2018 is frailty a stable predictor of mortality across time evidence from the cognitive function and ageing studies mousa a savva gm
